Contact: +352 25 10 33 23
The Fund is authorized in Luxembourg and manufactured by Limestone Platform AS.

This key information document is valid as at 12 February 2025.

What is this product?

Type: Société d'Investissement à Capital Variable [SICAV]
Term: This product is not subject to any fixed terms.

Objectives:
The investment objective of the Compartment is to achieve significant capital appreciation over each full market cycle. The Compartment is actively managed, mainly investing in stocks of companies from around the world (including emerging markets), with a market capitalization greater than USD 1 billion at the time of purchase, although the Compartment may invest in companies with lower market capitalizations if market conditions suggest doing so will help the Compartment achieve its objective. The strategy of the Compartment is growth oriented, this means it identifies and invests in stocks of companies with perceived future earnings growth potential. In addition, the Compartment may hold bank deposits as well as invest in bonds issued by companies or governments and money market instruments. In order to achieve its objectives, the Compartment may use derivatives to reduce the impact that the market changes might have on the Compartment performance. In principle you can sell shares of the Compartment on every full bank business day. Income remains in the Compartment and is reinvested.

Intended Retail Investor:
This product is intended for professional investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed for investors seeking to invest in an actively managed portfolio of selected growth equity instruments.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for a minimum of 5 Years. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years.

Recommended minimum holding period: 5 Years Investment: 10 000 USD			
Scenarios		1 Year	5 Years (recommended holding period)
Stress scenario	What you might get back after costs	1 250 USD	2 640 USD
	Average return each year	- 87.54 %	- 23.38 %
Unfavourable scenario	What you might get back after costs	5 940 USD	9 080 USD
	Average return each year	- 40.62%	- 1.91%
Moderate scenario	What you might get back after costs	10 260 USD	12 910 USD
	Average return each year	2.65%	5.25%
Favourable scenario	What you might get back after costs	14 560 USD	17 030 USD
	Average return each year	45.55%	11.23%

The stress scenario shows what you might get back in extreme market circumstances. This type of scenario occurred for an investment between 2015 - 2025.

What happens if Limestone Platform AS is unable to pay out?

The assets of the Fund are held in safekeeping by its Depositary, Caceis Bank, Luxembourg Branch, and are segregated from those of Limestone Platform AS. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary, and its ability to pay out, will not be affected. The Fund does not participate in an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10 000 is invested.

Investment: 10 000 USD	If you exit after 1 Year	If you exit after 5 Years
Total Costs	1139 USD	5126 USD
Annual Cost Impact	11.39 %	7.28 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.52% before costs and 5.25% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 Year
Entry costs	5.00% maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.	500 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	None
Ongoing costs		
Management fees and other administrative or operating costs	2.52% of the value of your investment per year. This is an estimate based on actual costs over the last year.	316 USD
Portfolio transaction costs	1.60% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	169 USD
Incidental costs taken under specific conditions		
Performance Fee	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	154 USD

How long should I hold it and can I take money out early?

Recommended minimum holding period: 5 Years
